None specified

### Minnie Maud Ridge CWMU Description

The Minnie Maud Ridge CWMU is located northeast of Helper, Utah on the Duchesne - Carbon County border. The Minnie Maud Ridge ranging from **8800 feet** in the northwest to 8200 feet on the east side forms the higher elevations on this Unit. The Roan Cliffs (8400 feet) slopes away from the Ridge forming the southern boundary. To the north Minnie Maud Creek cuts the unit and in some places forms the northern boundary ranging from 8400 feet in the west to **6900 feet** in the east. The eastside of the Unit runs into Ninemile Canyon. Eight drainages cut the Unit in the north and seven drainages cut the Unit in the south.

The Minnie Maud Ridge Cooperative Wildlife Management Unit (CWMU) is dominated by a combination of two (2) land cover types in about equal proportions, Inter-Mountain Basins Montane **Sagebrush Steppe** (62) and Rocky Mountain **Aspen Forest and Woodland** (22). Rocky Mountain **Gambel Oak-Mixed Montane Shrubland** (41) is scattered in patches throughout the Unit. Colorado Plateau **Pinyon-Juniper Woodland** (36) is confined to the northwest part. There are some large patches of Rocky Mountain Montane Dry-Mesic **Mixed Conifer Forest and Woodland** (30) and Inter-Mountain West **Aspen-Mixed Conifer Forest and Woodland Complex** (38) towards the middle-west of the Unit.
